Documents the training regimen of the Green Berets, from their initial recruitment through their physically and mentally grueling course of training, detailing the special character and skills that the Army looks for in selecting these versatile troops.

Documents the complete training regimen of the U.S. Army's Special Forces soldiers, the Green Berets, from their initial recruitment, through their physically and mentally grueling course of training, detailing the special character, intelligence, language skills, and adaptability that the Army looks for in selecting these versatile troops. Reprint. 25,000 first printing.

IN combating terror, America can no longer depend on its conventional military superiority and the use of sophisticated technology. We are fighting guerrilla wars, against insurgents hidden in remote regions, often deep among the local population. In battles such as these, squadrons of billion-dollar bombers and naval fleets mean much less than on-the-ground intelligence and the ability to organize local forces. That's why, more than ever before, we need men like those of the Army Special Forces—the legendary Green Berets. In Chosen Soldier, Dick Couch—a former Navy SEAL widely admired for his books about SEAL training and operations—offers an unprecedented view of the training of the Army Special Forces

warrior. Each year, several thousand enlisted men and several hundred officers volunteer for Special Forces training; less than a quarter of those who apply will complete the course. Chosen Soldier spells out in fascinating detail the arduous regimen these men undergo—the demanding selection process and grueling field exercises, the high-level technical training and intensive language courses, and the simulated battle problems that test everything from how well they gather operational intelligence to their skills at negotiating with volatile, often hostile, local leaders. Green Berets are expected to be deadly in combat, yes, but their responsibilities go far beyond those of other Special Operations fighters; they're taught to operate in foreign cultures, often behind enemy lines; to recruit, train, and lead local forces; to gather intelligence in hostile territory; to forge bonds across languages and cultures. They must not only be experts in such fields as explosives, communications, engineering, and field medicine, but also be able to teach those skills to others. Each and every Green Beret must function as tactical combat leader, negotiator, teacher, drill sergeant, and diplomat. These tasks require more than just physical prowess; they require a unique mix of character, intelligence, language skills, and—most of all—adaptability. It's no wonder that the Green Berets' training regimen is known as the hardest in the world. Drawing on his unprecedented access to the closed world of Army Special Forces training, Dick Couch paints a vivid, intimate portrait of these extraordinary men and the process that forges America's smartest, most versatile, and most valuable fighting force.

Sua Sponte Latin for "Of Their Own Accord" The 75th Ranger Regiment's Motto Army Rangers are not born. They are made. The modern 75th Ranger Regiment represents the culmination of 250 years of American soldiering. As a fighting force with our nation's oldest and deepest tradition, the Regiment traces its origins to Richard Rogers's Rangers during the prerevolutionary French and Indian War, through the likes of Francis Marion and John Mosby, to the five active Ranger battalions of the Second World War, and finally, to the four battalions of the current Ranger regiment engaged in modern combat. Granted unprecedented access to the training of this highly restricted component of America's Special Operations Forces in a time of war, retired Navy captain Dick Couch tells the personal story of the young men who begin this difficult and dangerous journey to become Rangers. Many will try, but only a select few will survive to serve in the 75th Ranger Regiment. Sua Sponte follows a group of these aspiring young warriors through the crucible that is Ranger training and their preparation for direct-action missions in Afghanistan against America's enemies, anywhere, any time, and under any conditions. INCLUDES PHOTOGRAPHS

A retired lieutenant colonel presents a behind-the-scenes portrait of the legendary North Carolina camps where Special Forces soldiers are trained, outlining the infamous Q Course where leaders endure brutal tests of strength, stamina and psychology. 75,000 first printing.

Special Forces soldiers are daring, seasoned troops from America's heartland, selected in a tough competition and trained in an extraordinary range of skills. They know foreign languages and cultures and unconventional warfare better than any U.S. fighters, and while they prefer to stay out of the limelight, veteran war correspondent Linda Robinson gained access to their closed world. She traveled with them on the frontlines, interviewed them at length on their home bases, and studied their doctrine, methods and history. In *Masters of Chaos* she tells their story through a select group of senior sergeants and field-grade officers, a band of unforgettable characters like Rawhide, Killer, Michael T, and Alan -- led by the unflappable Lt. Col. Chris Conner and Col. Charlie Cleveland, a brilliant but self-effacing West Pointer who led the largest unconventional war campaign since Vietnam in northern Iraq. Robinson follows the Special Forces from their first post-Vietnam combat in Panama, El Salvador, Desert Storm, Somalia, and the Balkans to their recent trials and triumphs in Afghanistan and Iraq. She witnessed their secret sleuthing and unsung successes in southern Iraq, and recounts here for the first time the dramatic firefights of the western desert. Her blow-by-blow story of the attack on Ansar al-Islam's international terrorist training camp has never been told before. The most comprehensive account ever of the modern-day Special Forces in action, *Masters of Chaos* is filled with riveting, intimate detail in the words of a close-knit band of soldiers who have done it all.

A classic work of American literature that has not stopped changing minds and lives since it burst onto the literary scene, *The Things They Carried* is a ground-breaking meditation on war, memory, imagination, and the redemptive power of storytelling. *The Things They Carried* depicts the men of Alpha Company: Jimmy Cross, Henry Dobbins, Rat Kiley, Mitchell Sanders, Norman Bowker, Kiowa, and the character Tim O'Brien, who has survived his tour in Vietnam to become a father and writer at the age of forty-three. Taught everywhere—from high school classrooms to graduate seminars in creative writing—it has become required reading for any American and continues to challenge readers in their perceptions of fact and fiction, war and peace, courage and fear and longing. *The Things They Carried* won France's prestigious Prix du Meilleur Livre Etranger and the Chicago Tribune Heartland Prize; it was also a finalist for the Pulitzer Prize and the National Book Critics Circle Award.

With a postscript describing SEAL efforts in Afghanistan, *The Warrior Elite* takes you into the toughest, longest, and most relentless military training in the world. What does it take to become a Navy SEAL? What makes talented, intelligent young men volunteer for physical punishment, cold water, and days without sleep? In *The Warrior Elite*, former Navy SEAL Dick Couch documents the process that transforms young men into warriors. SEAL training is the distillation of the human spirit, a tradition-bound ordeal that seeks to find men with character, courage, and the burning desire to win at all costs, men who would rather die than quit.

Secret Techniques of the Elite Forces is a must-have for anyone interested in the covert world of elite forces; it will provide the key to understanding what makes the specialist soldier so very special.
