It's a very busy day in Pontypandy for Fireman Sam, Elvis, Penny and the rest of the Fire Crew! Read about THREE of Fireman Sam's exciting rescues in this delightful treasury. The colourful treasury is perfect for bedtime stories and early readers. Children ages 3, 4 and 5 will love using the sturdy tabbed edges to turn the pages. Featuring the stories based on the television episodes: Hide-and-Seek, Turtle Hunt and Pest in Show.

Featuring six exciting adventures, this pocket library is sure to keep little hands gripped. With tales of daring rescues, featuring all your favourite characters from Pontypandy.

A fireman in charge of burning books meets a revolutionary school teacher who dares to read. Depicts a future world in which all printed reading material is burned.

Join Fireman Sam and his friends in these eight adventures. With stories based on episodes from the TV series, Fireman Sam comes to the rescue every time - along with the rest of the Pontypandy Fire Brigade and ace firefighter Penny Morris, from nearby Newtown.

Branding Television examines why and how the UK and US television industries have turned towards branding as a strategy in response to the rise of satellite, cable and digital television, and new media, such as the internet and mobile phone. This is the first book to offer a sustained critical analysis of this new cultural development. Branding Television examines the industrial, regulatory and technological changes since the 1980s in the UK and the USA that have led to the adoption of branding as broadcasters have attempted to manage the behaviour of viewers and the values associated with their channels, services and programmes in a world of increased choice and interactivity. Wide-ranging case studies drawn from commercial, public service, network and cable/satellite television (from NBC and HBO to MTV, and from BBC and Channel 4 to UKTV and Sky) analyse the role of marketing and design in branding channels and corporations, and the development of programmes as brands. Exploring both successful and controversial uses of branding, this book asks what problems there are in creating television brands and whether branding supports or undermines commercial and public service broadcasting. Branding Television extends and complicates our understanding of the changes to television over the past 30 years and of the role of branding in contemporary Western culture. It will be of particular interest to students and researchers in television studies, but also in creative industries and media and cultural studies more generally.

The Emily Post Institute, the most trusted brand in etiquette, tackles the latest issues regarding how we interact along with classic etiquette and manners advice in this updated and gorgeously packaged edition. Today `s world is in a state of constant change. But one thing remains year after year: the necessity for good etiquette. This 19th edition of Emily Post `s Etiquette offers insight and wisdom on a variety of new topics and fresh advice on classic conundrums, including: Social media Living with neighbors Networking and job seeking Office issues Sports and recreation Entertaining at home and celebrations Weddings Invitations Loss, grieving, and condolences Table manners While they offer useful information on the practical—from table settings and introductions to thank-you notes and condolences—the Posts make it clear why good etiquette matters. Etiquette is a sensitive awareness of the feelings of others, they remind us. Ultimately, being considerate, respectful, and honest is what `s really important in building positive relationships. "Please" and "thank you" do go a long way, and whether it `s a handshake, a hug, or a friend request, it `s the underlying sincerity and good intentions behind any action that matter most.

In a world of modern, involved, caring parents, why are so many kids aggressive and cruel? Where is intelligence hidden in the brain, and why does that matter? Why do cross-racial friendships decrease in schools that are more integrated? If 98% of kids think lying is morally wrong, then why do 98% of kids lie? What's the single most important thing that helps infants learn language? NurtureShock is a groundbreaking collaboration between award-winning science journalists Po Bronson and Ashley Merryman. They argue that when it comes to children, we've mistaken good intentions for good ideas. With impeccable storytelling and razor-sharp analysis, they demonstrate that many of modern society's strategies for nurturing children are in fact backfiring—because key twists in the science have been overlooked. Nothing like a parenting manual, the authors' work is an insightful exploration of themes and issues that transcend children's (and adults') lives.
