Industry after
World War II.
People hungered
for new

on rare
occasions a

Such was the
case with the

of the features

buyers wanted in

a modern

cool-running aluminum heads, but it lacked perhaps the most important technological upgrade: a modern overhead-valve valve-train design.

The Model K retained the antiquated side-valve design

because of
arcane AMA
racing rules
written when
Harley-Davidson
and Indian
competed head-to-

racetracks, but
by 1952 Indian

legs. This
should have made

nobody counted
on was the
British bike
invasion. Thanks
to their modern

engines, the
