Person-centred therapy, also known as person-centred or client-centred counselling, is a humanistic approach that deals with the ways in which individuals perceive themselves consciously, rather than how a counsellor can interpret their unconscious thoughts or ideas.

Person-centred therapy - Counselling Directory

It is one of the core conditions of person centred counselling and I believe that without congruence, the other skills used in counselling would suffer. As everything hinges on the counsellor being honest and real for the client. If a counsellor feels bored during a session and the feelings persist, then the counsellor (if he is being congruent) will tell the client how he is feeling. This is ...

Person-Centred Counselling in Action by Dave Mearns Praise for previous editions: `the first systematic, comprehensive text about this approach since Carl Rogers' own Client-Centred Therapy... outstanding' - Counselling, The Journal of the British Association for Counselling `I felt understood by this book!'

It is now 25 years since the first edition of Person-Centred Counselling in Action appeared, offering the definitive exposition of the theory and practice of the person-centred approach. Since then the book has supported and inspired hundreds of thousands of trainees and practitioners worldwide. This important Fourth Edition maintains the book's accessibility, clarity and verve whilst incorporating new developments in the approach. John McLeod joins authors Dave Mearns and Brian Thorne to contribute an exciting new chapter on research relevant to the person-centred field. Person-Centred Counselling in Action, Fourth Edition will be an invaluable resource for those embarking on their first stages of training. Well-established practitioners and even seasoned scholars will continue to find much to interest and stimulate them. Dave Mearns is professor of counselling and retired Director of the Counselling Unit of the University of Strathclyde. He has written seven books including Working at Relational Depth in Counselling and Psychotherapy (with Mick Cooper) and is co-editor of the international journal, Person-Centered and Experiential Psychotherapies. Brian Thorne is Emeritus Professor of Counselling at the University of East Anglia, Norwich where he was previously Director of Counselling and of the Centre for Counselling Studies. He is also a Co-founder of the Norwich Centre and continues to work there as a Professional Fellow. John McLeod is Emeritus Professor of Counselling at the University of Abertay Dundee and adjunct Professor of Psychology at the University of Oslo, Norway.

This practical and comprehensive guide is written for counsellor trainers and their trainees, as well as for counsellors already in practice wanting to familiarize themselves with the person-centred approach to counselling. Dave Mearns and Brian Thorne explain the theoretical principles of the person-centred approach by relating these principles to actual practice. Drawing on one particular case-study the two counsellors present an extensive exploration of the core conditions of empathy, acceptance and congruence, and provide a step-by-step account of both the counsellor's and the client's experience of being involved in a trusting, caring relationship characterised by power-sharing and mutuality.

An exposition of the theory and practice of the person-centred approach to counselling. Dave Mearns and Brian Thorne draw on a case study to explore the core conditions of empathy, acceptance and congruence, and provide step-by-step accounts of both the counsellor's and the client's experience of the therapeutic relationship. The result is a detailed map for all those who want to develop an understanding of this approach to therapeutic care.

`This thoughtful and thought-provoking book is essential reading not only for those involved in the training of counsellors within the person-centred approach, but also for individuals who may have simplistic, dismissive or otherwise ill-informed notions of the depth of self-awareness required of the person-centred practitioner and the far-reaching challenges offered by the approach. For counsellors who define themselves as "person-centred" but who have had no substantial training, it should be

compulsory reading' - British Journal of Guidance & Counselling Person-centred counselling probably requires more training - and a greater intensity of training - than most other mainstream counselling approaches, but until now no one book has concentrated solely on the principles, practices and requirements of training person-centred counsellors. Dave Mearns has drawn on the lived experiences of both trainers and trainees to demonstrate the potential range and importance of training in this field. The material covered includes selecting and supporting trainers, selecting course members, skills development, supervision and other professional issues - essential features of all counsellor training, but of particular relevance to the person-centred approach. Written expressly for both trainees and trainers, this book also extends and develops current thinking within the approach, and will be a valuable resource for all person-centred practitioners.

'At the risk of being directive, I would say you should buy this book. It contains some of the most stimulating and refreshing ideas to have emerged in the person-centred literature since On Becoming a Person' - Person Centred Practice Person-Centred Therapy Today makes a timely and significant contribution to the development of one of the most popular and widely-used therapeutic approaches. 'This is a book that is rooted in the origins of person-centred therapy but stands at the cutting edge of new ideas developing in this tradition. It will reinvigorate those of us already immersed in this tradition. It should convince newcomers of the vitality and potential of this approach to therapy

'Not only is this the first key text on person-centred counselling psychology, but one of the best introductions to the approach. Gillon combines an in-depth understanding of the person-centred field with a highly accessible writing style to produce a book that will be of enormous value to anyone wanting to practice person-centred therapy. Essential reading for trainee and practising counselling psychologists with an interest in the person-centred approach and highly recommended for counsellors and psychotherapists of all orientations' - Mick Cooper, Professor of Counselling, Counselling Unit, University of Strathclyde Person-Centred Counselling Psychology: An Introduction is an introduction to the philosophy, theory and practice of the person-centred approach. Focusing on the psychological underpinnings of the approach, Ewan Gillon describes the theory of personality on which it is based and the nature of the therapeutic which is characterised by unconditional positive regard, empathy and congruence. The book shows how the person-centred approach relates to others within counselling psychology and to contemporary practices in mental health generally. It also gives guidance to readers on the approach's research tradition as well as considering key issues for those wishing to train and work as a person-centred practitioner. As such, it is designed to be an applied, accessible text, providing a dialogue between the psychological basis of person-centred therapy and its application within the real world. As well as psychology students, it will be of interest to those from other disciplines, counselling trainees, those within the caring professions, and person-centred therapists from a non-psychological background. Ewan Gillon is Director of The Edinburgh Psychology Centre and Lecturer in Counselling Psychology at Glasgow Caledonian University.

This book has already helped thousands of beginning practitioners understand the subtleties of the person-centred approach and develop skills in person-centred counselling practice. Now in its second edition, this step-by-step guide takes the reader through the counselling process, providing advice on how to structure and manage therapeutic work in ways which are thoroughly grounded in person-centred principles. Janet Tolan defines the key tenets of the approach - psychological contact, congruence, empathy and unconditional positive regard - and demonstrates how they are used effectively in a range of counsellor-client interactions. Describing all aspects of the therapeutic relationship from the initial meeting to ending the relationship well, this new edition contains new chapters - 'Debates and Developments in Practice' and 'Edgy and Ethical Issues'. This book is an ideal introduction for beginners and for more experienced therapists who want to extend their range. Janet Tolan is a Consultant and Private Practitioner in Manchester. She has worked extensively in education and training, most recently as leader of the Counselling and Psychotherapy Masters programme at Liverpool John Moores University.

Praise for the previous editions: 'The discussion of empathy, acceptance and congruence is central and should be required reading for all trainees working to understand the richness of these core concepts... outstanding' - Counselling and Psychotherapy, The Journal of the British Association for Counselling and Psychotherapy 'The book conveys the profound respect for the person, for his/her autonomy and uniqueness, which is inherent in the Rogerian approach' - British Journal of Medical Psychology 'Truly allows the reader to enter the world of the person-centered counsellor' - Contemporary Psychology It is now almost twenty years since the first edition of Person-Centred Counselling in Action appeared. In that time this SAGE bestseller has maintained enormous popularity with trainees and practitioners and has achieved world-wide acclaim. This substantially revised Third Edition provides an excellent introduction to the theory and practice of person-centred counselling while incorporating exciting new developments in the approach. Dave Mearns and Brian Thorne have preserved the compelling and accessible style of its predecessors. At the same time they provoke reflection on many of the key issues which concern not only person-centred practitioners but those across the whole counselling and psychotherapy field. New to this edition is: - the inclusion of "relational depth", a key development for the person-centred approach and counselling generally - extended discussion of the counsellor's use of self - a new chapter containing the authors' answers to frequently-asked-questions - the inclusion of diversity issues covering religion, gender and sexual orientation - further reading suggestions. Much has changed in the person-centred orientation since the death of Carl Rogers in 1987. Not only have new schools of thought emerged with different emphases and therapeutic possibilities but the authors of this book have themselves been responsible for significant advances in key areas of person-centred theory and practice. These developments are fully reflected in the revised text. Continuing to offer a clear exposition of the theory and practice of the approach, Person-Centred Counselling in Action, Third Edition will be invaluable for those embarking on their first stages of training. Well-established practitioners and even seasoned scholars will continue to find much to interest and stimulate them.

'This is a useful book for those who use person-centred counselling in their practice, or who are training to become person-centred counsellors' - Counselling and Psychotherapy, the Journal of the British Association for Counselling and Psychotherapy Developing Person-Centred Counselling, Second Edition is designed to help counsellors improve their skills within the person-centred approach. Written by Dave Mearns, leading person-centred expert and bestselling author, the Second Edition has been fully revised and updated taking account of developments in person-centred practice. With new chapters on growth and transference, the book covers the subjects which are central to person-centred training: } the core conditions } therapeutic alliance } development of the counsellor } therapeutic process } the person-centred approach in relation to psychopathology. Supported by case material and examples from practice, each part of the book presents the counsellor with practical, and often

challenging ideas, which encourage him/her to think carefully about his/her practice and how to improve it. *Developing Person-Centred Counselling, Second Edition* is a highly practical and inspiring resource for trainees and practitioners alike.

Person-Centred Counselling in a Nutshell is a short, accessible guide to one of the most popular approaches to counselling. Using examples drawn from practice, Roger Casemore outlines, in a clear, jargon-free style, the main principles of the person-centred approach, using the core therapeutic conditions: - congruence - unconditional regard - empathy This revised and updated second edition includes new material on professional issues, on the use of person-centred counselling in short-term therapy, and on the wider application of the person-centred approach in other settings. Providing a concise introduction to the theory and practice of person-centred counselling, *Person-Centred Counselling in a Nutshell* is the ideal place to start for anyone reading about the approach for the first time. Roger Casemore is Senior Teaching Fellow and Director of Counselling courses at University of Warwick
