taken place in the domain of political theory in the present age of liberalisation and globalisation. The concept of the nation-state has undergone a major change on account of the irresistible erosion of sovereignty in the internal and external spheres and the emergence of the model of a transnational state. Different models of state may be seen in the countries of the Third World. It has put a question mark on the future of the nation-state. The basic tenets of liberalism have been challenged by Neo-liberalism and Communitarianism with the

result that now it is on the retreat. In the post-World War II period, the New Fabians had revised the tenets of Fabianism, but in the post-Cold War era it has been replaced by the Third Way. The pluralists had attacked the classical theory of sovereignty, but the neo-pluralists have given a new shape to it. The theme of political legitimacy has been revisited. The old concept of citizenship requires to be reinterpreted in the contexts of civic republicanism, multi-culturalism and identity politics. It has happened with other themes as well

which may be taken note of in the emergence of new topics like Neo-colonialism, Post-colonialism, Post-communism and the like. The task of a political scientist is to comprehend and critically describe the underlying principles of political behaviour in their empirical as well as normative dimensions. Inter-disciplinary focus has become so popular now that the implications of the themes of various social sciences have penetrated into the domain of each other. The discipline of political science has become a study of 'power' and of 'struggle' for its sake at

A survey of democratic institutions and republics reveals the aristocratic origins of democracy.

Since emerging in the late nineteenth century, political science has undergone a radical shift--from constructing grand narratives of national political development to producing empirical studies of individual political phenomena. What caused this change? *Modern Political Science*--the first authoritative history of Anglophone political science--argues that the field's transformation shouldn't be mistaken for a

case of simple progress and increasing scientific precision. On the contrary, the book shows that political science is deeply historically contingent, driven both by its own inherited ideas and by the wider history in which it has developed. Focusing on the United States and the United Kingdom, and the exchanges between them, *Modern Political Science* contains contributions from leading political scientists, political theorists, and intellectual historians from both sides of the Atlantic. Together they provide a compelling account of the development
