Professor Tom Shippey is best known for his books 'The Road to Middle-earth' and 'J.R.R. Tolkien. Author of the Century'. Yet they are not the only contributions of his to Tolkien studies. Over the years, he has written and lectured widely on Tolkien-related topics. Unfortunately, many of his essays, though still topical, are no longer available. The current volume unites for the first time a selection of his older essays together with some new, as yet unpublished articles.

Roots and Branches, Robert Duncan's second major book of poetry (first published in 1964) is now reissued.

The story of the banjo's journey from Africa to the western hemisphere blends music, history, and a union of cultures. In Banjo Roots and Branches, Robert B. Winans presents cutting-edge scholarship that covers the instrument's West African origins and its adaptations and circulation in the Caribbean and United States. The contributors provide detailed ethnographic and technical research on gourd lutes and ekonting in Africa and the banza in Haiti while also investigating tuning practices and regional playing styles. Other essays place the instrument within the context of slavery, tell the stories of black banjoists, and shed light on the banjo's

Articles compiled from Beidler's newspaper column in the Altoona mirror giving ideas and tips on where and how to do your genealogy, and advise on the do's and don't's. The print version of "Roots & Branches" has appeared in three different newspapers at times, currently in the Altoona Mirror, and now also appears online as "Roots & Branches - The Blog!".

Roots & Branches is rooted in a story of love and longing based on a fatal accident in a primitive upper Egyptian village over a century ago. In this rich and powerful story Meguid explores his remarkable early life based on a journal, letters and photos, which amply illustrate the book. How does a four-year-old boy uprooted from a cozy Egyptian family endure abandonment in impoverished post-war Germany? In his vivid biography of his formative years Meguid traces his childhood-alone, forsaken and often threatened with corporal punishment. Born to an Egyptian father and a German mother, his earliest memories of Cairo are idyllic, but his mother's refusal to adapt to Egyptian life resulted in upheaval. At the age of four, his

parents left him in Hamburg with his German grandparents, where life became defined by the rigid rules of his Prussian grandfather. The desertion left him with a gaping hole, howling loneliness, and a longing that rippled through him. When his parents collected him five years later, they took him to England, where once again he had to adapt to being an outsider. When he eventually returned to his beloved Egypt, he had been gone so long that he no longer quite fit in there either. His father's premature death thrust Meguid into another existential crisis of abandonment. Facing conscription and an uncertain future, Meguid learned to navigate his own path.

This collection of essays tells the story of jazz dance past and present, focusing on history, not technique. This anthology examines trends, influences, training, race and gender issues, aesthetics and the international appeal of jazz dance.

William Logsdon (c.1730/1742) emigrated from Ireland to Maryland in 1674, and married Honora O'Flynn about 1701 or 1702. They purchased land in what is now Carroll County, Maryland in 1707. Descendants and relatives lived in Kentucky, Indiana, Texas, Oklahoma, California, Arizona, Arkansas and elsewhere.
