Cultivate a love for science by providing standards-based practice that captures children's attention. Spectrum Science for grade 5 provides interesting informational text and fascinating facts about galaxies, subatomic particles, identical twins, and the first airplane. --When children develop a solid understanding of science, they're preparing for success. Spectrum Science for grades 3-8 improves scientific literacy and inquiry skills through an exciting exploration of natural, earth, life, and applied sciences. With the help of this best-selling series, your young scientist can discover and appreciate the extraordinary world that surrounds them!

Interactive Notebooks: Science for grade 5 is a fun way to teach and reinforce effective note taking for students. Students become a part of the learning process with activities about ecosystems, body systems, physical and chemical changes, weather, Earth's crust, natural resources, and more! --This book is an essential resource that will guide you through setting up, creating, and maintaining interactive notebooks for skill retention in the classroom. High-interest and hands-on, interactive notebooks effectively engage students in learning new concepts. Students are encouraged to personalize interactive notebooks to fit their specific learning needs by creating fun, colorful pages for each topic. With this note-taking process, students will learn organization, color coding, summarizing, and other important skills while creating personalized portfolios of their individual learning that they can reference throughout the year. --Spanning grades kindergarten to grade 8, the Interactive Notebooks series focuses on grade-specific math, language arts, or science skills. Aligned to meet current state standards, every 96-page book in this series offers lesson plans to keep the process focused. Reproducibles are included to create notebook pages on a variety of topics, making this series a fun, one-of-a-kind learning experience.

Life science and biology have always been quite interesting, but if your child is not into them, then this workbook will step in to help. Created with powerful pictures and one-liners, this book is the perfect complement to what your child calls boring school lectures. Go ahead and grab a copy of this workbook today!

Common Core Science 4 Today: Daily Skill Practice provides the perfect standards-based activities for each day of the week. Reinforce science topics and the math and language arts Common Core State Standards all year long in only 10 minutes a day! Weeks are separated by science topic so they may be completed in the order that best complements your science curriculum. Review essential skills during a four-day period and assess on the fifth day for easy progress monitoring. Common Core Science 4 Today series for kindergarten through fifth grade covers 40 weeks of science topics with engaging, cross-curricular activities. Common Core Science 4 Today includes a Common Core Standards Alignment Matrix, and shows the standards covered on the assessment for the week for easy planning and documentation. Common Core Science 4 Today will make integrating science practice into daily classroom instruction a breeze!

Supplement your science curriculum with 180 days of daily practice! This invaluable classroom resource provides teachers with weekly science units that build students' content-area literacy, and are easy to incorporate into the classroom. Students will analyze and evaluate scientific data and scenarios, improve their understanding of science and engineering practices, answer constructed-response questions, and increase their higher-order thinking skills. Each week covers a particular topic within one of three science strands: life science, physical science, and Earth and space science. Aligned to Next Generation Science Standards (NGSS) and state standards, this resource includes digital materials. Provide students with the skills they need to think like scientists with this essential resource!

Set of materials for classroom use in Grade 5 science curriculum.

Physical Science for grades 5 to 12 is designed to aid in the review and practice of physical science topics. Physical Science covers topics such as scientific measurement, force and energy, matter, atoms and elements, magnetism, and electricity. The book includes realistic diagrams and engaging activities to support practice in all areas of physical science. The 100+ Series science books span grades 5 to 12. The activities in each book reinforce essential science skill practice in the areas of life science, physical science, and earth science. The books include engaging, grade-appropriate activities and clear thumbnail answer keys. Each book has 128 pages and 100 pages (or more) of reproducible content to help students review and reinforce essential skills in individual science topics. The series is aligned to current science standards.

Spectrum Science Test Practice provides the most comprehensive strategies for effective science test preparation! Each book features engaging and comprehensive science content including physical science, earth and space science, and life science. The lessons, perfect for students in grade 7, are presented through a variety of formats and each book includes suggestions for parents and teachers, as well as answer keys, a posttest, and a standards chart. Today, more than ever, students need to be equipped with the essential skills they need for school achievement and for success on proficiency tests. The Spectrum series has been designed to prepare students with these skills and to enhance student achievement. Developed by experts in the field of education, each title in the Spectrum workbook series offers grade-appropriate instruction and reinforcement in an effective sequence for learning success. Perfect for use at home or in school, and a favorite of parents, homeschoolers, and teachers worldwide, Spectrum is the learning partner students need for complete achievement.

Lesson plans and activities to teach science to elementary level students.
